## DETAILED ACTION

### *Election/Restrictions*

Claims 10-39 are allowable. The restriction requirement among the Groups of Species, as set forth in the Office action mailed on Nov. 14, 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 19-27, directed to Group 2 of the Species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### *Response to Amendment*

The Amendment filed on Dec. 13, 2006 has been entered. Claims 28-39 are newly added per the Amendment filed. Therefore, claims 10-39 are now pending in the current application.

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The title of the application has been amended as follows: Multi-Domain vertical alignment liquid crystal display panel comprising alternating and parallel slits and projections.

#### *Allowable Subject Matter*

Claims 10-39 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 10, 19 and 28: None of the prior arts either alone or in combination fairly teach or suggest a multi-domain LCD panel comprising of a plurality of protrusions each arranged parallel to and alternately with each slit, and further that the protrusion in each pixel region is positioned above the first electrode pattern, which is formed traversing a middle of each pixel region.

Therefore, claims 10, 19 and 28 are deemed non-obvious and inventive over the prior arts, thus are allowed.

As to claims 11-18, 20-27 and 29-39: Since claims 11-18, 20-27 and 29-39 depend either directly or indirectly on the allowed claims 10, 19 and 28, therefore, are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Relevant Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
